About US

Easiest Overseas is a specialist International Recruitment Company providing clients worldwide with Managers, Professionals, Specialists, Engineers, Supervisors (local, regional and expatriate), across Design, Engineering, Project Controls, Inspection, Fabrication, Construction, Commissioning, Production, Manufacturing, Operations, Maintenance and Admin disciplines.

We provide personnel for the entire project lifecycle – from project definition, execution to production, operations and maintenance through local and international networks, joint ventures and alliances. Our innovative service includes providing both temporary and permanent personnel. Whether our clients need a single person or a whole team, from managers and specialists to technicians, site and admin support.

Our headhunting service is aimed primarily at executive and senior level appointments, however we also source mid –level positions that involve rare skill sets. We carefully identify suitable candidates by our in – house research and sourcing team to contact and then manage through the recruitment process.

We handle everything from candidate shortlisting, interviews and selection to the minutiae of briefing, relocation support, visas, work permits, tickets, emigration, insurance and the associated personnel and administrative details.

We are committed to add value to our clients operations and commitment to a high quality of service

EXTENSIVE AND UPDATED DATABASE

Our well defined, standardised and documented resourcing, recruitment, staffing, support processes are certified as per ISO 9001:2015 standard for Quality Assurance and Quality Systems. Strict quality procedures ensure that our databases and systems are well maintained and information on candidates, clients and client requirements is constantly updated.

We have long standing contracts and customer relationships, due to our value added approach on all assignments, an extensive and updated database of pre – screened personnel, built through our networks of engineers, specialists and associates. We subject our selected candidates to skill checks, reference checks, qualification verification and additional security clearance as required.

We strive to recruit the most qualified and competent candidates with expertise in specialized areas, within the project timelines.

Our real – time database is constantly updated, renewed and refined, the system has the ability to identify and shortlist an initial list of potential candidates, local and international for a specific skill and project.

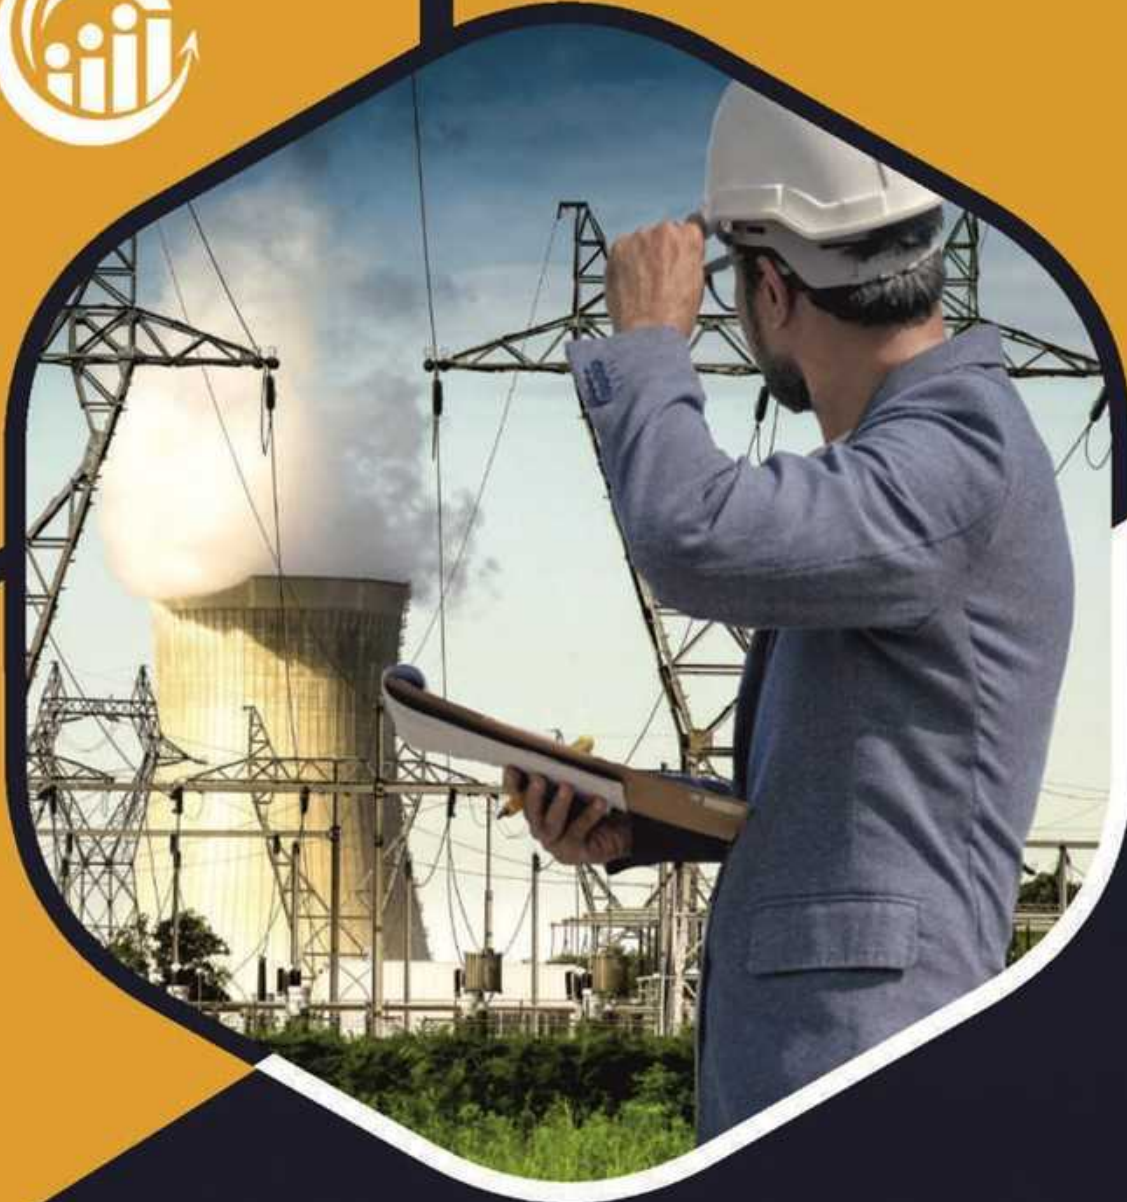

Our attention to detail brings clients and candidates back to us again and again. We do more than recruitment, we build viable and trustworthy relationships an integral and dependable component throughout the research and sourcing process.

Our network of specialists in the verticals that we service, are involved in advice to our recruitment associates in the handing of technical assignments and interviews for major client recruitment campaigns.

Our confidence that we can fulfil your needs as a client or a candidate is based on the fact that we're focused on Niche Verticals and Practices. Our goal is to constantly add adding value to our client business.
